The Fourth Quarter of Your Life

Have you heard of the book 'The Fourth Quarter of Your Life?'" It is a very intriguing book by Allen Hunt & Matthew Kelly, written in a workbook style with thought-provoking questions about what you want to accomplish during the time you have left on this planet. The premise of the book is that life consists of four quarters:

- First quarter: 1-20 years old
- Second quarter: 21-40 years old
- Third quarter: 41-60 years old
- Fourth quarter: 61-80 years old
- Older than 80 is **Bonus Time!**

The Fourth Quarter

8/11/2026

"Have you heard of the book 'The Fourth Quarter of Your Life?'" It is a very intriguing book by Allen Hunt & Matthew Kelly, written in a workbook style with thought-provoking questions about what you want to accomplish during the time you have left on this planet. The premise of the book is that life consists of four quarters:

Second quarter: 21-40 years old

Third quarter: 41-60 years old

Fourth quarter: 61-80 years old

Older than 80 is Bonus Time!

The authors state in the introduction that what makes aging unbearable is the mistaken belief that it can be avoided. Everyone knows this isn't possible and yet, we often persist in our avoidance and denial which makes us miserable. As I am reading this practical workbook style book, I feel encouraged and empowered to look at my fourth quarter in a new light.

If you are 61+ or approaching the fourth quarter, I invite you to explore your thoughts and feelings on aging by using this book as a guide. The purpose of the book states that this is a practical guide to help you:

- Live the fourth quarter based on proven life principles
- Clearly establish meaning and direction for your life
- Develop the clarity necessary to make good decisions
- Identify your hopes and dreams
- Establish what you need and want most at this time in your life
- Learn to say no

I will be offering a four-week series to support you in this endeavor. This will be the second time I
